

Sendai Framework Voluntary Commitment

“CONTRIBUTING VIA CORE BUSINESS STRENGTHS, DRR INNOVATION AND PARTNERSHIPS”

Progress Report, Deliverable #1

October 2020

Commitment:

Kokusai Kogyo commits to innovating and delivering geospatial information technology solutions that contribute to building resilience to disasters and accelerating Sustainable Development. We commit to make accessible these solutions not only in Japan, but across Asia and beyond.

Deliverable:

1. PRIVATE-PRIVATE PARTNERSHIPS TO DELIVER DRR/SDGs/CLIMATE SOLUTIONS

We commit to identifying and establishing business relationships with a wider range of private sector partners in Asia, towards the purpose of bringing our DRR solutions to governments and communities in the partners' geographic areas of operation. For 2018-2021, we target potential partners that will help us bring our DRR/SDGs/Climate Change solutions to VIP (Vietnam, Indonesia, Philippines) countries, plus Taiwan, Singapore, and Japan. Outputs would be presented as periodically updated reports including list of corporate news releases reporting on new business partnerships.

Outputs: This deliverable is completed, as of report date, through the outputs below.
