

# 'I can live with that': Living with Earthquake Risk in Wellington

## *Joining People and Technology*

## APRIL 30, 2019

## 8:00AM – 5:00PM

This workshop is designed to explore using technology to provide Wellingtonians with the information needed to make decisions about living with natural hazards and what to do when confronted by them.

### Wellington City Council

113 The Terrace, Wellington, 6011 NZ

#### At the workshop, you will:

- Discuss and evaluate how to use GIS to support people who make the decision to work, live, or play in Wellington to understand their hazards;
- Learn about respective technology that enables integrated long-term planning;
- Review & discuss results from the Resilience Information Maturity Assessment for Wellington;
- Participate in a tabletop exercise focused on how to use IT/GIS to support decision making for an earthquake incident; and
- Strengthen your resilience network before the next disaster strikes.

#### Workshop Agenda

- 8:00 AM - Coffee
- 8:30 AM – Welcome & Opening Remarks
- 8:45 AM – Session 1: 'I Can Live With That'
- 9:00 AM – Session 2: Technology Showcase

- 4:30 PM - Close

The event is organized by SPIN Global in collaboration with Wellington City Council and 100 Resilient Cities, funded by the U.S. Department of Homeland Security Science & Technology Directorate.

SPIN Global is a D.C. based small business that exists to provide solutions that help private, nonprofit and government agencies improve coordination prior to a disaster. We help organizations to jointly plan, train and operate together effectively as a team and assist one another in the time of need. We address this coordination challenge by modernizing disaster risk reduction and emergency preparedness programs, with a distinct focus on applied science and the use of technology as a catalyst for change in how coordination is achieved to improve disaster resilience.
